(Date)

Hiya, Folks.

I wrote you a regular letter on Saturday and have been meaning to write a V-mail since. - but have been too busy for even that much! Sunday we took a trip and went visiting again, and yesterday I found I was obligated to get a Wing (highly light) and act as a Courier. - That was a 24 hr. job, too, as I didn't get back till today!

As Courier, I was given a jeep which must have been about 200 miles! - Boy, what a work-out, that jeep is over 1000 African miles. My fat-downer is still sore! - Guess they had had a cycle for my jeep as they have some places - then everything would have been handy doing. I think that's probably the first time I been in a 500 (0) since I came to get me in Greenville before I went to Kelly Field. - What a thing for me to say! Of course - among rounds, I don't of what I was carrying. I wasn't armed, as if you were a day for me every little old fight! - Had the chance to shoot down a lot of rats, too. - ~~about~~

By the way - old Brown tell you that the plane we brought over from the states is now used as one of Gen. Polillo's personal planes? - I don't know what that makes me the!

Joe - You never been able to get Paul Hughes to answer my letter. Probably because until recently I didn't know he had left Birmingham. The only address I have is his home which they will forward. - That's 4350 - Northcote Ave. Bronx, N.Y.C. - I got a short note from Jimmie

Callahan this morning. - He is now somewhere in Brazil. - I don't know if the mail comes down again. - I might do that every now and then but the V-mail will go there!

Love, Frank
